PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering student at JECRC University, expected to graduate in 2028, with a focus on full-stack web development. Familiar with JavaScript, React.js, Node.js, MongoDB, REST APIs, Python, C, and C++. Developing projects in emergency assistance and gym management. Seeking a Full-Stack Developer internship or entry-level opportunity to apply programming fundamentals, build practical solutions, and grow through hands-on engineering experience.

TECHNICAL SKILLS

Programming	JavaScript, Python, C, C++
Frontend	React.js
Backend & APIs	Node.js, REST APIs, API integration
Database	MongoDB
Focus Areas	Full-stack web development, database-driven applications

PROJECTS

ResQ 2.0 | Emergency Assistance Application

Status: Working prototype

- Developing an application focused on emergency assistance and healthcare service coordination.
- Exploring emergency SOS suggestions and hospital-related service request workflows.
- Prototype is in progress; feature completion and testing details should be added once confirmed.

Gym Management SaaS | Web Application

Status: In development

- Developing a web application concept to digitize gym management workflows.
- Exploring attendance management and QR-based member interaction workflows.
- Add the implemented features and confirmed technology stack before submitting the resume.

INTERNSHIP & HACKATHON

Xebia — Virtual Internship	Completed a two-week virtual internship. Add training topics, assignments, and technical contributions.
Adobe Hackathon — Participant	Participated in an Adobe hackathon. Add the problem statement, solution, technologies, and outcome.

CERTIFICATIONS

- Google Cloud Certificate — add the exact certificate title.
- Xebia Internship Certificate.
- Adobe Hackathon Certificate.

EDUCATION

JECRC University | Bachelor of Technology (B.Tech), Computer Science and Engineering

Expected Graduation: 2028 | CGPA: Add current CGPA if available
